

Merging Great People with Great Projects

# Residential Construction

## Design and Build Custom Homes and Home Renovations

### Residential Building Experience

Custom building residential homes in Northeast Wisconsin since 1993, RJM Construction has built a reputation for quality, integrity and hard work. While RJM designs, plans and builds your home, we will also build a relationship with you, the customer. Your home is a reflection of you and we build your home by getting to know you, listening to your ideas, and working with you throughout the building process. Company founder Ryan Minschmidt has created a niche in the market by integrating these standards into every home he and the RJM skilled construction crews design, build and finish or remodel.

### Why Contract RJM to Build or Renovate Your Home?

For over 15 years, Ryan Minschmidt has built RJM Construction as a company that values family and respects the investment that clients are making in their home. While RJM continues to operate as a small business, we have the vision and see each home as one-of-a-kind, building it to each client's exact specifications.

Along with ensuring complete satisfaction and a quality, custom home, we want our clients to truly enjoy the building process. While our experience and systems will help guide you through the important steps, your input is encouraged every step of the way to:

- Establish a budget
- Custom design your home or renovation project
- Plan and build your home or renovation project
- Guide you through the construction process
- Create flexible design decisions throughout the process

### Discover the RJM Commitment

RJM's commitment to excellence focuses on you, the customer. We build a relationship with you to ensure your investment results in a well designed, quality built home. RJM builds homes that last and relationships that go beyond receiving the keys to your new home.

See how RJM has been delivering on this commitment for over 15 years and what makes RJM Construction the right choice for you. Contact us today at 920.984.3103 to discuss your project or visit us at [www.rjmconstructionllc.com](http://www.rjmconstructionllc.com) to see the RJM advantage!
